

SEAOSD 2016

EXCELLENCE IN STRUCTURAL ENGINEERING AWARDS

The Structural Engineers Association of San Diego (SEAOSD) congratulates and acknowledges six recipients of the 2016 Excellence in Structural Engineering Awards. Recognition was given for creativity and innovation in design, efficiency in use of materials and labor, suitability of the design to the performance objectives of the project, and addressing any unusual challenges of the project. Project submissions were judged by a panel of three structural engineers: Richard French – Division of the State Architect (DSA), Steve Kerr - Josephson-Werdowatz & Assoc., Inc., and Alvaro Celestino- Degenkolb.
